*The annual percentage rates (APRs) for the 30 Year Fixed (360 Monthly Payments), and 5 Year adjustable-rate loans (30-year term) are calculated based on a purchase of single family, owner-occupied residence with a down payment of 20%, a loan amount of \$440,000.00, and a property located in Multnomah County, Oregon. The annual percentage rates (APRs) for the 5 Year adjustable rate 100% Loan to Value (LTV) loans (30-year term) are calculated based on a purchase of a single-family, owner-occupied residence with a purchase price and loan amount of \$440,000.00 and located in Multnomah County, Oregon.

The APR includes the approximate cost of prepaid finance charges, including 15 days of prepaid interest, a \$1650 origination fee, and any applicable points associated with the interest rate. Actual APRs for individual loans may differ. All loan applications are subject to credit and property approval. If your down payment or equity is less than 20% mortgage insurance may be required, which will increase the monthly payment and APR. Assumes no other loans or liens on subject property. Property and/or flood hazard insurance may be required. These mortgage rates are based upon a variety of assumptions and conditions, some of which may include a credit score of 780 or higher. Your loan's interest rate will depend on specific characteristics of your transaction and your credit profile up to the time of closing. Adjustable-rate mortgage (ARM) interest rates and payments are subject to change during the loan term. That change can increase or decrease your monthly payment. ARM interest rates and payments are subject to increase after the initial fixed-rate period (3 years for a 3/6 ARM, 5 years for a 5/6 ARM, 7 years for a 7/6 ARM and 10 years for a 10/6 ARM).

Payment examples use rates available as of 12/23/2024.

30 Year Fixed Rate For a 30-Year Fixed Rate Mortgage Loan at 6.875% interest rate; 7.044% APR would be 360 monthly payments of \$2,890.49.
